DIGIT-NOW

Our Mission

For many years, an integrated business management environment that unifies a web of systems, processes, users and data to support the business plan has been a prerequisite for large enterprises.

The accelerating pace of business is also putting increasing pressure on businesses in the SME sector, which requires a more efficient solution. However, many people believe that such a complex solution is not affordable for SMEs.

We have managed to refute this claim. Our mission is to deliver this integrated solution to this target market.

DIGIT-NOW

TYPICAL BUSINESS NEEDS THAT REQUIRE APPLICATION MODERNISATION

One integrated solution instead of independent applications
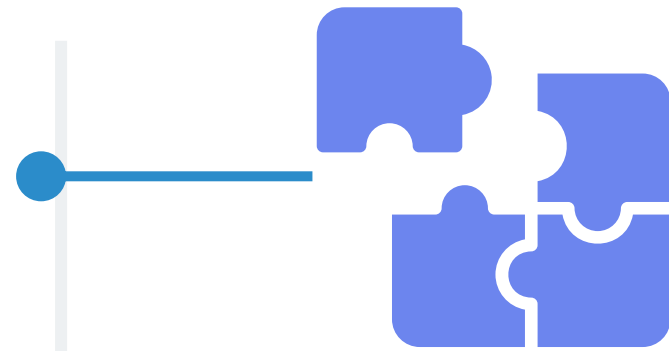

Mindset upgrade

Decision making supported by the system

Interface solutions with external systems

Task implementation according to resource planning

Optimized processes

DIGIT-NOW
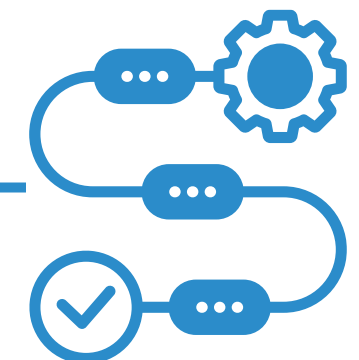

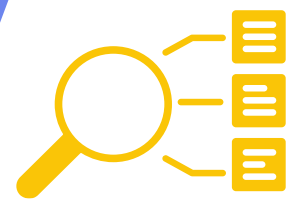

What is ClickUp?

ClickUp is a full-service SaaS platform that offers a wide range of features to efficiently manage the tasks of your business.

It is designed to support teams and individual users in their business tasks.

- 15+ views

DIGIT-NOW

Front-Office Modules

Marketing

The steps mapped in the system make the marketing strategy traceable and measurable.

CRM

A satisfied customer will come back with new requests. ClickUp provides a framework for this, where customer-related information is easily found and used in one place.

Sell

A dedicated module offers a professional solution for creating, documenting, tracking and closing sales offers.

Contract Management

It is recommended to implement such a system for the preparation, signing and follow-up of contracts to be signed, ongoing and expired.

DIGIT-NOW

Back Office modules

HR tasks

Periodic and ad hoc HR tasks, e.g. mapping working time recording to a customised process

Asset Management

Maintenance periods, licences and their continuous monitoring

Finance

Structured accounting of monthly financial tasks and cash flow statements

Daily Business delegation

Mapping of specialised processes integrated with delegation and 4-eyes principle

Project

Mapping internal and external project processes

Business Strategic Planning

Transparency of objectives and validation between management and operational level

ClickUp interfaces
